Care	Information	<p>Durably Flame Retardant. This means that the fabric is chemically treated to meet the flammability requirements of BS5867 Part 2 Type B. FR properties will be maintained if subject to moisture, however, do not wash. If the fabric is subject to moisture, allow to dry naturally prior to storing. The cloth can be professionally dry cleaned using the correct chemical process.</p> <p>Notwithstanding the aforementioned, it would be our advice to only dry clean this material periodically. We would suggest that the fabric be soft-brushed on a regular basis and periodically cleaned using a vacuum and drapery attachment. Commercial flame retardants may alter the aesthetics, appearance, colour or performance of the textile material.</p> <p>This fabric is not pre-shrunk.</p>
